Summary

Computer Science graduate with strong knowledge of **Data Structures, Algorithms, OOP, and DBMS**. Experienced in developing **scalable mobile applications** using Flutter with real-time data handling. Proficient in **Python, C++, and SQL**. Seeking a **Software Engineer** role.

Education

B.Tech in Computer Science	2020 – 2024
Sagar Institute of Science, Technology & Research	CGPA: 8.67/10

Higher Secondary (12th)	2020
BSL Public School	72.40%

Experience

Assistant System Engineer, TCS	Mar 2025 – Present
---------------------------------------	--------------------

- Contributing to **enterprise-level applications** and handling **SQL database operations**
- Working in an **Agile environment**, participating in debugging, testing, and deployment cycles

Flutter Developer Intern, DRMZ System Innovations	Jun 2023 – Aug 2023
--	---------------------

- Developed a **Smart Home mobile application**, improving efficiency by **30%**
- Integrated **Firebase real-time database**, reducing latency and improving responsiveness
- Collaborated with a **team of 4 developers** to design scalable UI

Projects

Smart Home Application – Flutter, Firebase

- Built application supporting **multiple IoT devices** for home automation
- Improved response time by **40%** using real-time synchronization
- Designed intuitive and responsive UI for better user experience

Telemedicine Application – Flutter, Dart

- Developed app for **video consultation** and patient management
- Integrated **payment system** for seamless transactions

Technical Skills

Languages: Python, C++, C, SQL, Dart

Frameworks/Tools: Flutter, Firebase, Android Studio, VS Code

Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Achievements

- **Winner** – SIH Innovation Hackathon 2023
- **2nd Runner-Up** – Analytica 4.0 Case Competition 2024
- Solved **1200+ problems** on LeetCode (**1800+ rating**)
- Solved **1200+ problems** on GeeksforGeeks
